

## Printing With Leaves

Hello, my name is Marian Haf, thank you for watching the Printing with leaves video.

Here is a list of the resources that you'll need to start printing at home.

Ink

Roller

<https://intaglioprintmaker.com/product/essdee-economy-red-handledroller/>

Printing Paper

<https://intaglioprintmaker.com/product/fabriano-rosaspina-220g/>

Etching Needle

<https://intaglioprintmaker.com/product/abig-etching-needles/>

## Blotting Paper

<https://intaglioprintmaker.com/product/blotter/>

You will also need:

- A dish to soak the paper
- A pallet to roll the ink (this could be an old piece of glass, a tray or plate)
- Scrap paper,
- If mixing colours a pallet knife comes in handy
- Leaves

To clean up I use cheap oil and kitchen paper to dry the ink from the roller and pallet and then soap and water, you could also use Mr Muscle degreaser.

You can follow my work on Instagram or Facebook @marianhaf
