

## Printing with Packaging

Hello my name is Marian Haf, thank you for watching the Printing With Packaging video.

Here's a list of the resources you'll need to try the activity at home.

Ink

Etching Needle

<https://intaglioprintmaker.com/product/abig-etching-needles/>

## Blotting Paper

<https://intaglioprintmaker.com/product/blotter/>

You will also need:

- old cereal packaging or something similar
- scissors
- pencil and rubber
- wooden spoon
- dish to soak the paper
- pallet to roll the ink (this could be an old piece of glass, a tray or plate)
- scrap paper,
- if you intend mixing colours, a pallet knife is handy

To clean up I use cheap oil and kitchen paper to dry the ink from the roller and pallet and then soap and water, you could also use Mr Muscle degreaser.

You can follow my work on Instagram or Facebook @marianhaf
